SCORES ARE DYING

This Weather too Much for the Babies.

Great Prevalence of Cholera Infantum.

Due to Insufficient Care and Lack of Nourishment.

At the board of health office this morning the names of those who died yesterday from cholera infantum were found to be pouring in and before night it is probable that their number will reach 100 or more, says the Boston Record. The last two or three days have been a frightful mortality to the infants in the city. Scores of the little ones have died, and in almost all cases the cause appears on the books of the board of health as cholera infantum.

Cholera is not alone in starting fatality from this dread disease. Many Michigan towns have found that 1922 has been a bad year for babies. With drawn, agonized little face, clammy limbs, inward fever, and torturing spasms, and cramping pains, the little life has been yielded up and cholera infantum has claimed another victim.

Physicians, nurses and mothers who have had experience in this year's epidemic of cholera infantum, have found that in almost every case where lactated food was used the disease was avoided and the child kept well and strong all through the summer.

Prevention is the better part of cure at all seasons and the child who lives upon this food will keep well and strong during the summer season and carry a good stock of vitality into the fall and winter. Next to perfectly beautiful mother's milk, lactated food is the most nourishing, as it is the most easily digested and the most harmless diet for infants.

Sleazy feat of sleight-of-hand, then disappear in the crowd.

The other day he performed an involuntary trick—one he did not anticipate. He happened to jump on the front of a Broadway car and found he had no small change. He opened his pocketbook to get out a bill, and, in pulling out a note of one dollar denomination, also pulled out a one hundred dollar bill that was beneath it.

This for a moment fluttered in the wind. The car window was open; it made a quick dip backward, and neatly fell into a lady's hand satchel, which by accident had been left open on her lap.

As she was looking out of the window she did not notice the circumstance. But Herrmann walked back through the car, inserted his fingers into the lady's bag and drew forth the one hundred dollar bill, pleased and triumphant.

The crowd in the car of course recognized the magician and set up a howl, thinking it was one of his clever tricks. The lady, however, took the thing in a different spirit. She got very angry and rebuked him with her tongue and threatened to call a policeman, and said that she was not to be made the laughing stock of the public.

Herrmann in every way tried to explain and satisfy her that he had not selected her as the butt of one of his practical jokes, but without avail.

The constant demand of the traveling public to the far west for a comfortable and at the same time an economical mode of traveling, has led to the establishment of what is known as Pullman Colonist Sleepers.

These cars are built on the same general plan as the regular first-class Pullman sleeper, the only difference is that they are not upholstered.

They are furnished complete with good comfortable hair mattresses, warm blankets, snow white linen, curtains, plenty of towels, combs, brushes, etc., which secure to the occupant of a berth as much privacy as is to be had in first-class sleepers.

There are also separate toilet rooms for ladies and gentlemen, and smoking is absolutely prohibited. For full information send for Pullman Colonist Sleeper Leaflet. E. L. Lomax, General Passenger and Ticket Agent, Omaha, Neb.
